## HEAT WAVE CONTINUES TO SWEEP STATE

### Stifling Heat Continues To Grip District

Heat Records For Early  
June Are Broken In  
Pennsylvania

MANY FATALITIES  
RESULT OF HEAT

Some Promise Of Relief In  
Sight Given By State  
Weatherman

(International News Service)  
With a death list already  
touching nearly a score and  
rising almost hourly, Penn-  
sylvania today stifled again  
under a relentless, scorching  
sun which sent the mercury  
into the upper nineties for  
new heat records for the  
week and, in many places,  
for all time on June 9.

Only a qualified promise of  
relief was in sight with the govern-  
ment weather bureau forecasting  
possible local thunderstorms tonight  
but slightly warmer temperatures.

**Western Penna. Hard Hit**  
The western section of the state  
was hardest hit by the heat wave  
which came rolling in from the west.  
Thirteen deaths were reported in  
Western Pennsylvania alone and the  
Philadelphia district added four  
more to the list. The middle district  
was singularly void of fatalities al-  
though temperatures there ranged  
on a par with the rest of the state.  
Most of the Pittsburgh district  
fatalities—which totaled 11 for the  
last two days—were due to drown-  
ings as thousands of persons flocked  
to community pools and swimming  
beaches to escape the blistering  
heat.

Four of the deaths were from heat  
prostration in Pittsburgh.  
Yukon and Greenville each re-  
ported one drowning and another

### PA NEW OBSERVES

When the weatherman indicated  
a few days ago that a heat wave was  
sweeping, he was not in the least  
mistaken. The temperature official-  
ly reached 99 here yesterday, which  
is several degrees higher than any  
of the entire summer of 1932. At 9  
o'clock last night the temperature  
was 95 on the porch at many  
homes, and it didn't cool off much  
during the night.

Pa. New will now look to the  
state highway department to elimi-  
nate that heave in the street paving  
on Highland avenue near Sum-  
ner that is fast approaching the  
proportions of one of the mounds  
out around St. Louis. There is a  
peculiar heave in the paving that  
has been gradually increasing.

The public park benches down-  
town were in large demand last  
night. Many sought a chance to  
cool off in this little beauty spot in  
the center of the city.

There are a lot of auto drivers  
in this city that seem to think that  
as soon as they get out of a paved  
street they are licensed to tear along  
at 70 miles an hour if they so de-  
sire. Some of them are going to  
come to grief and then the practice  
will be cut out.

That painter perched high on the  
post office beams and those men  
handling torches on West Wash-  
ington street bridge probably lay  
claim to the hottest jobs here out-  
side of the tin mill forces.

### Daily Weather Report

hour period ending at 9 o'clock this  
morning follow:

River stage, 5.4 feet.

Statistics for the same date a  
year ago follow:

### All Heat Records For June 8 Broken As Mercury Soars

All heat records for June 8  
were broken yesterday, when the  
official U. S. weather bureau  
thermometer at the New Castle  
water plant jumped to 99 de-  
grees, which was the highest  
mark recorded since the sum-  
mer 1931 and three degrees over  
the highest mark of any day last  
summer.

According to the Pittsburgh  
office of the United States

weather bureau, yesterday's tem-  
peratures in Pittsburgh were  
five degrees higher than any  
previous mark recorded on June  
8.

There was little relief during  
the night, the mercury dropping  
to but 74 degrees, and residents  
of New Castle and the sur-  
rounding district suffered in-  
tensely.

Today gave indications of be-  
ing equally as hot.

County Convention Is Also  
Against Repeal Of Sun-  
day Observance Laws

LARGE CROWD AT  
CONVENTION HERE

Awards Are Made At Clos-  
ing Session Of Assem-  
bly Thursday

Unanimity of opinion in re-  
gard to state affairs as affect the  
spiritual status of the country  
was expressed in the 95th an-  
nual convention of the Lawrence  
County Sabbath School associa-  
tion Thursday when the hun-  
dreds from the county Sunday  
schools assembled in the First  
Methodist church and went on  
record as standing firmly for the  
18th amendment, the contin-  
uance of Sabbath laws, and being  
opposed to anything which will  
in any manner break down this  
legislation.

The afternoon session opened at  
1 o'clock with D. M. Marshall of  
Wampum, vice president, as the of-  
ficer in charge.  
John W. Owens conducted a song  
period, with a choir of over 50 young  
people, and a special feature of the  
service was the songs of a quartet  
of colored men from Ellwood City.  
Miss Ione Sykes, state superin-  
tendent of children's division, gave  
a most inspiring address on "Plan-  
ning Christian Education for the  
Growing Child." She stressed the  
point that the methods of Sunday  
school education is antiquated and a  
revolution in methods should take  
place, bringing the system to a  
modern point.

### Compromise Plan On Economy Act Meets Approval

cepts Roosevelt's Plan  
On Veteran's Act

(International News Service)  
WASHINGTON, June 9.—Presi-  
dent Roosevelt's compromise plan for  
modification of the drastic veterans  
economy act was formally approved  
today by the special house veterans  
committee subject to clarifying  
changes.

The Democratic steering commit-  
tee was expected to accept the rec-  
ommendation of the special body  
differences between the president  
and congress, and attempt to drive  
the compromise plan through the  
house tomorrow under special rule.

### Nurses' Class Is Graduated

Diplomas Presented To 13  
Graduates Of New Cas-  
tle Hospital

EXERCISES OCCUR  
WEDNESDAY NIGHT

In the presence of a host of  
relatives and friends, the mem-  
bers of the 1933 graduating class  
of the school of nursing of New  
Castle hospital, 13 in number,  
last night received their diplo-  
mas during an interesting  
and highly instructive program  
presented in the auditorium of  
Ben Franklin junior high school.  
John Maher, member of the board  
of the hospital, presided. The first  
address of the evening was given by  
Rev. Fr. Dominick A. Mielcarek,  
pastor of St. Stanislaus parish,  
Youngstown. His address was for-  
mal and instructive. Recalling the  
sorrow of influenza that swept the  
world during the World war period  
as an example, he showed how it  
was the members of the medical and  
nursing professions that proved the  
heroes and heroines in battling with  
this dread disease, which nothing  
else was able to combat.

"It is you," he said, addressing the  
members of the graduating class,  
"that are the captains of the in-  
ternal defense in the protection of  
the very vitals of the nation." You

### Treasurer's Safe In Indiana County Looted Of Money

Police Working Without  
Single Clue In Case;  
Robbed At Noon

FINGERPRINTS  
ARE SCRUTINIZED

(International News Service)  
INDIANA, Pa., June 8.—The In-  
diana county treasurer's office was  
looted of \$2,930.67.—The entire con-  
tents of the safe except for six  
nickels—during the lunch hour yes-  
terday, police revealed today. There  
was \$1,777 cash in the loot.  
Mystery pervades the entire case  
and police apparently are working  
without a single clue in an effort  
to solve the robbery.

Only one potential clue was found  
—it in itself a mystery. The only  
valuables left in the safe were six  
nickels which apparently had been  
carefully placed on the floor of the  
vault in the shape of a letter "P."

**Scrutinize Fingerprints**  
Fingerprints on the vault and on  
the treasury office door were being  
scrutinized by police today.

Only two of the three employees  
in the office worked yesterday. De-  
lloss Martin, 28, chief clerk, and Maj.  
Charles C. McLean, county treasurer  
and prominent among Spanish-Ameri-  
can war veterans circles in Penn-  
sylvania. Martin left the office a  
few minutes before McLean and the  
robbery apparently occurred during  
their absence.  
No one saw the thief, or thieves,  
enter the treasurer's office, although  
it is located on the main corridor  
of the court house first floor. Em-  
ployees of a bank across the street  
saw nothing suspicious.  
Police are working on the theory  
the robber entered through the  
front door, unlocked it and then  
carefully relocked both before  
fleeing. One key to the vault was  
found not to be in its customary  
place today.

### Expect Filing Of Divorce Suit In Roosevelt Case

Wife Of Elliott Roosevelt  
Can Enter Suit For  
Divorce In July

PRESIDENT'S SON  
LIVING IN NEVADA

Wife May Secure Divorce  
Decree Without Going  
To Western State

(International News Service)  
RENO, Nev., June 9.—Filing  
of a suit for divorce against El-  
liott Roosevelt, son of the presi-  
dent, by his 21-year-old wife,  
Mrs. Elizabeth Browning Donner  
Roosevelt, is expected to be  
made about July 15.

Young Roosevelt established a  
residence at isolated Elk Point, on  
Lake Tahoe, ten days ago, at the  
home of Samuel Platt, one of the  
leading Reno attorneys.

He left the state for three days'  
visit with his mother, Mrs. Franklin  
D. Roosevelt, in Los Angeles, and it  
was understood that this time must  
be made up. This would place the  
completion of the legal six weeks'  
residence period at about mid-July.

**By Deposition.**  
It will be possible under Nevada  
law for his wife to win the decree  
without coming to Nevada. This  
was done in the Peter Arno divorce  
case, with Arno establishing resi-  
dence and filing a formal complaint  
and his wife filing a cross-complaint,  
giving her evidence by deposition,  
and obtaining the divorce.

Meanwhile young Roosevelt was  
expected to return here immedi-  
ately following his Los Angeles visit  
with his mother.

Since the Platt home is located in  
Douglas county, it was probable that  
the case will be heard in the little  
Minden, Nev. courthouse where  
Mary Pickford obtained a divorce in  
1920 from her actor-husband, Owen  
Moore.

**Remarriage Denied.**  
PORT COLUMBUS, O., June 9.—  
Denying that her son, Elliott Roose-  
velt, is to remarry soon "as far as I  
know," and insisting that her son's  
life is his own, Mrs. Franklin D.  
Roosevelt left here by airplane at  
7:01 a. m. (EST) today for Newark,  
N. J.

Confronted here with reports that  
her son, Elliott Roosevelt, may marry  
Miss Ruth Goggins, socially promi-  
nent Port Worth girl, Mrs. Roose-  
velt declared:

"Elliott is not planning to marry  
soon as far as I know."

The first lady said her visit with  
her son had nothing to do with his  
marital rift. She added emphatically  
that she had made no effort to  
affect a reconciliation and that she  
regarded Elliott's life and affairs as  
his own.

"I would not attempt such a rec-  
onciliation. That's not my affair,"  
she declared. "That is Elliott's life."

the publishers' convention held in  
Pittsburgh his subject being "Color."  
He is also interested in magic and  
attended the convention of the In-  
ternational Brotherhood of Magicians

### ELLIOTT ROOSEVELTS REACH PARTING OF THE WAYS

"Incompatibility" is blamed by friends of Elliott Roosevelt, 23, second son of the President, and his wife  
establish a residence in Reno. He recently flew to Tucson, Ariz., to meet his mother and escort her by plane  
to California. Mrs. Roosevelt is the former Betty Donner, daughter of a Philadelphia steel magnate. The  
Roosevelts, born last November, is believed to have been reached. Above, recent photo of the couple and, in-

### Lamont Tells Senate Probers Of Income Tax

Reveals Sales Of Stock To  
His Wife And Repur-  
chase Of Same

CUT DOWN HIS  
TAX OBLIGATION

(BULLETIN)

(International News Service)  
WASHINGTON, June 9.—The  
great banking firm of J. P. Morgan  
& Co. bowed to the power of the U.  
S. senate today when one of its  
young partners, Thomas S. Lamont,  
fully described at the senate  
banking inquiry a series of personal  
stock transactions that reduced his  
income taxes in 1931.

He followed instructions of J. P.  
Morgan in testifying about the deals.  
The senate voted its banking  
committee to investigate the bank-  
er's income taxes yesterday.

Lamont told of selling a large block  
of stocks to his wife on December 30,  
1930. He repurchased them in April,  
1931.

He said the transactions resulted  
in a saving of \$2,035.86. This in-  
cluded \$1,440.29 on his own return  
and \$595.57 in his wife's return.

Lamont declared the bureau of  
internal revenue had approved the  
transactions.

### Hitch Hiker Is Hurt In Crash

"Tissie" Smith, aged about 40, a  
member of the B. E. F. from Pro-  
ctor, W. Va., received injuries Thurs-  
day afternoon on the New Wilmington  
road, when the car in which he  
was riding, left the road and struck  
a culvert. Smith received a severe  
laceration over the right eye. The  
driver of the car was uninjured.

Smith was enroute to West Vir-  
ginia, and was picked up by a mo-  
torist. Smith, it is said, was ex-  
plaining a map to the driver, dis-  
tracting his attention and causing  
the machine to leave the road. He  
was brought to the Jameson Mem-  
orial hospital for treatment.

### WILL ROGERS says:

(Special To The News)  
BEVERLY HILLS, Cal., June  
9.—All I know is just what I  
read in the papers. I see where  
they are not going to discuss  
the war debts on account of it  
being rather embarrassing to  
discuss 'em on the day they are  
due. They are just going to  
make out like nobody is paying  
any attention to 'em and Europe  
won't be.

They talked about how fast  
Roosevelt got things done. Con-  
gress is going to make a snail  
out of him. They are going to  
undo in ten days what it took  
him ten weeks to do.

Excuse me, I got to listen to  
the fight.

James Mattern, round-the-  
world flier, flew to Krasno-  
yarsk in fast time today and  
hopped off four hours later  
for an unknown destination,  
presumably Chita.

Early advices received here failed  
to state whether Mattern succeeded  
in effecting full repairs to his dam-  
aged plane at Krasnoyarsk, or de-  
cided to wait until he reaches Chita  
before subjecting the craft to a  
thorough overhauling.

Mattern took off from the town  
of Bielo, where he had been forced  
down by a broken fuel pipe, shortly  
after 9 p. m., Thursday E. D. T.

He reached Krasnoyarsk at 4:30 a.

# GIRL SCOUTS HAVE COURT OF HONOR

## Awards Are Made To Many Scouts

Ceremony Takes Place In Hall At City Building Thursday Night

MRS. ANNA HANGER DIRECTS PROGRAM

A most interesting Court of Honor ceremony was held last evening in the Sons of Union Veterans Hall in the city building for the Girl Scouts of Minnehaha Troop of which Mrs. Anna S. Hanger is the captain. Parents and friends of the members of the troop were present and witnessed the investiture of four new girls as members of the troop and the presentation of various awards of merit for attendance, and advancement in the work of girl scouting.

Assisting Mrs. Hanger in the ceremony was Miss Martha Bigley, scout commissioner, Miss Elizabeth Reis, first lieutenant of the troop and deputy scout commissioner, and Miss Martha McGill, a lieutenant of the troop and Miss Bonnie Christman, also an officer of the troop.

The ceremony opened with the inducture ceremony in flag formation and was followed by the investiture of Hattie Paxson Davis, Barbara Matthews, Mollie Culliford and Marilyn Pierce, as tenderfoot scouts and Miss Bonnie Christman.

Second Class badges were then presented to Marie Galbraith, Margaret England, Grace Miles, Mary Louise Meehan, Helen Allen and Louetta Nicholson by Mrs. Hanger.

Miss Martha Bigley, the scout commissioner, next presented Louetta Marion Smith and Janet McCintock with First Class badges. Mrs. Hanger presented Gold attendance stars for perfect attendance to Donna Jean Beall, Audrey Gilliland, and Mary Jane McCintock. The presentation of silver attendance stars for ninety percent attendance by Mrs. Hanger was then made to Ruth Connor, Beatrice Connor, Grace Miles, Margaret Porteous, Mary Louise Meehan and Eleanor Wallace. This part of the program was con-

cluded with a talk on the coming girl camp by Mrs. Hanger, in which she spoke of the need of speedy registration on the part of girls planning to attend.

Awards Are Made  
Presentation of proficiency badges was carried out in the form of a pageant with Miss Elizabeth Reis first lieutenant of the troop and deputy commissioner in charge and making the awards. The pageant, a three act affair was written in rhyme by the members of the troop. The girls of the Algonquin patrol of which Miss Bonnie Christman is the leader, acted as the curtain. Miss Martha McGill read the lines of the pageant as it progressed.

The first act had to do with the award of the badges that had to do with outdoor proficiency awards, the second with these of Home Proficiency awards and the third with those of School Proficiency awards. The badges in each were awarded at the close of the respective acts.

The awards made were as follows: Mary Louise Meehan—observer and scholarship; Grace Miles, Helen Allen, Margaret England and Louetta Nicholson, scholarship; Sara Wilson—housekeeper; Geraldine Porteous—first aid, junior citizen, housekeeper; Lois Marion Smith, housekeeping, first aid, junior citizen, dressmaker; Eileen Miles—housekeeper, first aid, junior citizen, dressmaker; Janet McCintock, electrician, child nurse, junior citizen, housekeeper, Mary Jane McCintock, electrician, child nurse, junior citizen, housekeeper, Beatrice Connor, electrician, athlete, woodcraft, G. S. child nurse, junior citizen, pioneer, cook; Donna Beall, housekeeper, bird finder, tree finder, flower finder, health winner, G. S. aid, electrician, athlete, woodcraft, G. S. child nurse, junior citizen; Ruth Connor, electrician, child nurse, junior citizen; Bernice Forrest, first aid, junior citizen, child nurse; Betty Bridenbaugh, first aid, pioneer, cook, housekeeper; Audrey Gilliland, electrician, athlete, child nurse, junior citizen; George Parker, craftsman, electrician, child nurse, junior citizen, dressmaker, needlewoman.

At the close of the ceremony, the girls voted to send one girl camp for a week and sending Janet McCintock to a close with songs, after which taps ended the program of the Court of Honor.

So far as the town man's sympathy is concerned, farmers who spill the milk spoil the beans.

will be unsung and unheralded but with the best of equipment that has been furnished you in your training, it is up to you to carry on, in accordance with the ideas of our hospital and your profession. The community and your hospital are proud of you and are looking forward to your success."

Presents Diplomas.

Diplomas were presented each of the members of the class by Adolph Green, president of the hospital board, who previous to the presentation, spoke briefly of the work that the hospital is doing for the community and the part that the graduates had taken in this work. He called attention to the fact that during one of the most trying periods in the history of the world, but that they and the hospital had carried on just the same as in the times of prosperity. He said that he believed that those entering the nursing profession were not so much interested in worldly gain as in helping the sick.

Following his remarks, each nurse came forward as her name was called and received her diploma, while the audience applauded each much applause.

Dr. David L. Perry was the final speaker of the evening and after an interesting talk on the three types of duty open to the graduates, he climaxed his remarks by urging the members of the class to cultivate tolerance for others, that their influence might prove as broad as possible.

Musical Numbers.

Other features of the evening's program included the following selections by the Emory orchestra: March, "The Captain General" by Marie Louka; "The Rose of Algiers" by Victor Herbert; and the march, "Love and Glory" by Lee O. Smith. Delightful vocal selections were given by Anthony DiLorenzo and Miss Marian Wilkinson. That of the former was "Love's Pilgrimage" by Manna Zucca and that of Miss Wilkinson "Low, Hear the Gentle Lark". Miss Kathryn Lewis and Miss Katharine Newberry were the respective accompanists.

Instrumental piano selections were presented by James Fox and Lena Silverman, both of whom made a very favorable impression by their interpretations of the selections presented. Mr. Fox presented C sharp Minor Prelude by Rachmaninoff and Miss Silverman gave Rhapsody No. 2 by Liszt.

The chairman, speakers and members of the graduating class occupied the stage, which was beautifully decorated with many flowers.

The exercises started promptly at 8 o'clock. Just prior to the start of the program, the members of the graduating class marched in and took their places on the stage, while members of Order of Sisters of St. Francis and a group of student nurses in uniform came in and took

seats in the front of the auditorium. Graduates of the hospital in their white uniforms acted as ushers. At the close of the program, the graduates marched to the lobby of the school, where they received the congratulations of their relatives and friends.

The members of the graduating class were: Joanne Claire Ferris of New Waterford, O.; Victoria Madeline Stoppick of Youngstown, Anna Elizabeth Connor, Frances Cecilia Hood and Lois Wahneida Welker of New Castle; Mary Alice Dunn and Agnes Mary Crowe of Ellwood City; Mabel Frances and Catharine Ione Shaffer of Mercer; Rose Marie Steffen of Youngstown; Mary Elina Thilia of Ellwood City; Alyce Elizabeth Kennedy of Portersville and Mary Katharine Wallas of New Castle.

was registered near Uniontown yesterday.

Above Record  
In Pittsburgh, the temperature today started at 78 at 6 a. m., ten degrees above yesterday at the same time, and mounted rapidly to 90 at 11 o'clock with prospects the all time record of 92 would be shattered. Yesterday's high of 96 was seven degrees above the June 8 record.

Philadelphia—The "hot spot" of the state—recorded a reading of 91 at 11 o'clock with the mercury rising steadily and speedily. The heat was only slightly less intense at Harrisburg where the weather bureau reported 88 degrees at 10 o'clock.

From practically every other community in the state came similar reports of smothering heat and new temperature records for early June. Franklin was an example. There the June record was shattered yesterday with a reading of 97.5, more than three degrees higher than any previous June temperature on record. Even a terrific rainstorm during the night failed to stem the uprush of the mercury at Franklin.

## COLORADO SCHOOLS TEACH GOLD MINING

Last year, Tiemann said, 3,729 men, women and children were entering the course.

Let's see; armament is a cruel burden, and Germany deserves sympathy because she can't have any.

netic, forceful speaker, had as his theme "Keep the Home Fires Burning" and his concrete illustrations of home life today were most striking. He stressed the fact that in many homes honesty is lacking, confidence is lacking, courtesy is lacking and a devotional life is lacking. He spoke of the remedy for this sad situation is in the home and the return of the family altar.

Dr. C. B. Winger, pastor of the Central Presbyterian church, introduced the speaker of the afternoon, Rev. Robert S. Axtell, pastor of the First Presbyterian church of New Brighton, who spoke on "Adult Psychology" saying that adults should think in terms of the younger people and children instead of centering their thoughts in terms of the adult. He took up the theme of the earlier afternoon which Mr. McGarvey had expressed in regard to the home, and carried it into the church, and with suggestions from the group and the aid of a blackboard he gave an interesting discourse on what goes into the elements of the church.

A series of conferences brought the afternoon session to a close, with Miss Ione Sykes and Mrs. M. E. Vaughn in charge of the children's division; B. A. McGarvey, adult and administrative; Alice Grimes, young people's and Miss Margaret Walker, temperance.

# GERTRUDE FULLERTON WEDS WILLIAM DAVIS

A very pretty wedding of this month was that which took place Thursday afternoon at the home of Mr. and Mrs. James N. Fullerton at Mt. Jackson when their daughter Gertrude became the bride of William Davis, son of Mr. and Mrs. Joseph Davis, also residents of Mt. Jackson.

At 3 o'clock the vows were exchanged with the Rev. Robert Hamill, pastor of the Mt. Jackson United Presbyterian church, officiating in the presence of the families, relatives and friends numbering 70. The ring service was used.

The bride was lovely in a white lace gown, ankle length, and wore a veil cap shape with long train. She carried an arm bouquet of white roses, intermingled with blue and pink flowers. Miss Frances Fullerton, sister of the bride, as maid of honor, was attired in a pink lace frock patterned the same and her bouquet was of the mixed summer flowers.

Robert Davis of Lansing, Mich., served as best man.

Masters Robert Dyck of Blacksburg, Va., and Tommy Gray of Pittsburgh carried silver baskets of flowers.

An informal tea followed the congratulatory period, and later in the day Mr. and Mrs. Davis departed on a motor trip, their destination being unrevealed.

The bride was formerly a dietitian at the Jameson Memorial hospital and was graduated from the Battle Creek college, Battle Creek, Mich. The groom attended Carnegie Tech. Many guests were present from out of town.

Upon their return the couple will reside on the Mt. Jackson-Bessemer road.

## Mrs. Johnson's Garden Party Is Most Enjoyable Event

The spacious lawn at the home of Mrs. Grace Phillips Johnson on Moody avenue was transformed into a fairy playground for all ages last evening when she gave a most successful garden party. It was for the benefit of the music committee of the First Christian church.

With the many flowers in blossom, balloons strung about, the special lighting effects used and a beautiful moon hovering above, it was indeed a setting long to be remembered by the 350 guests in attendance.

The entertainment was in progress at 7 o'clock and as the guests entered they were given cordial greetings by Mrs. Johnson, Mrs. Karl W. Core of Lenape Lodge, Ford City, and others assisting. Acting as masters of ceremonies were Harold Heck and James K. Love.

## ABOLITION OF SLUMS

ONE of the urgent needs of modern times is the abolition of slums. Bad housing and congested conditions such as exist in some sections of most large cities are not only detrimental to health but become breeding grounds of crime.

The situation is one not easy to remedy. Ramshackle buildings can be torn down and comfortable apartments and houses erected, but these cannot be rented, profitably, at the rates charged for the ones they replace. This would mean that the former dwellers in the district, unable to pay the higher rates, would have to move to other sections where conditions would be no better than those in the districts from which they were driven.

The British government has launched a two-year slum clearance campaign which it hopes will rid England and Wales of slums. The plan contemplates the making of loans by building societies, whose funds consist chiefly of savings of small investors, up to 90 per cent of the value for the construction of cheap-tenement houses for working men. The building societies will be guaranteed by the government and local authorities against loss on 20 per cent of their loans. Under the plan, building societies will make advances for a period of 30 years at 4 1/2 per cent in London and the southern counties and at 4 per cent elsewhere.

The building societies are said to have on hand millions of pounds in surplus funds awaiting investment.

The fact that labor and building materials now are cheaper probably than ever before is a favorable factor in the undertaking.

The British experiment will have special interest in the United States where the slum problem has become a serious one. Some attempts at solving it are being made here, but none so widespread as that in England.

It may never be possible to abolish slums completely, but it ought to be possible to improve present conditions in this respect.

## AN IMPORTANT DECISION

An important decision, in relation to the protection of investors, has been handed down by a New York court.

It was given in a suit brought by a woman who purchased two shares of stock of the Harriman National Bank & Trust company at \$1.512 each. She was led to buy it on representation by a vice president of the bank "that a few first-grade depositors" were being invited to buy small lots which had "heretofore been very closely held."

The purchaser sued the bank and Joseph W. Harriman, its former chairman. In directing a judgment in favor of the plaintiff, Justice Shientag of the supreme court held that the person who sells stock at a market price known to the seller to be maintained artificially may be held responsible for the losses incurred by the buyer.

"The stock was purchased by plaintiff in reliance upon false and fraudulent misrepresentations concerning the bid and asked prices," he said in his decision. "Instead of a bonafide market for the stock, the price was artificially maintained and known so to be by the officers making the misrepresentations."

Should the decision be upheld, it will mark an important advance in protecting the rights of investors.

## NEW TYPE OF TRAIN

More speed and greater comfort for passengers are to be tried by the Union Pacific railroad in an effort to win back some of the traffic it has lost to busses and airplanes.

Success of the effort would mean quick duplication by other lines. A revolutionary type of train has been designed for the experiment. It will be of streamline construction and capable of a top speed of 110 miles an hour and a sustained speed of 90 miles. It will consist of three cars hinged together and all operated on four trucks. The construction material will be aluminum or light-weight stainless steel. The power will be in a 600-horsepower internal combustion engine. The coaches will be sealed, but equipped with an air-conditioning system by which they can be cooled in summer and heated in winter.

The combination of speed and comfort will constitute a forceful appeal for increased patronage, provided there is no sacrifice of safety. But the high speed contemplated throws a questioning element into the plans.

The public and the competitive transportation system will await the experiment with considerable interest.

## FAILURES STILL DECLINE

Among the signs of increasing industrial stability, one that deserves to be ranked among the more important is the decline in business failures.

The improvement in this respect is not a sudden spurt, but represents a steady advance which has been observable through February, March and April and still is pointing upward. According to Dun and Bradstreet's, not since April, 1926, has the number of business failures been as low as they were for last April.

This development, taken in connection with the other rapidly multiplying evidences of general business improvement, is a confidence-inspiring factor. Part of the lower number of failures may be due, of course, to the fact that many weak concerns already had given up the ghost. Even though this may be true, it does not erase the value of the failures decline as an indication that industrial stabilization is under way.

## INDISPENSABLE NEWSPAPER

An editor in a middle western town gave local business men and other readers a simple little lesson in the value of a newspaper. They had been saying that all advertisers needed was circulation, regardless of medium. The editor slyly got out his paper with nothing in it but advertising on the front, back and in-between pages. Three issues were enough to convince the townspeople, including the advertisers, that a newspaper was preferable to a dodger. The ads were worth little without the daily quota of news, editorials and features which make up a newspaper.

Complaining about his daily paper is a favorite indoor sport of the average American. Yet when the general public is deprived of any part of its paper, there is always a prompt demand for its restoration.

### WE MUST NOT USE LIFE

MIGHT AS WELL get it out of my system.

Something that's been irritating me for two or three years. Annoying me like a tick on a sheep or a splinter under a finger nail or a blister on my heel. In fact, just a short article I read in a "religious" magazine back in 1930. . . . I tore out that page and saved it, not because I liked it, but because I didn't like it at all. Because it gave me the creeps.

The title of that bit of writing was "The Usableness of the Ninety-first Psalm," and the woman who wrote it was reverent enough, I suppose, but bothersome. . . . She told several pretty stories about women who had found that psalm highly "usable."

One was a woman who kept a restaurant and one day the head waiter told her that he and all the rest of the servants were leaving that night because she hadn't raised their salaries. That night she picked up her Bible and read and re-read the psalm before going to bed. She slept peacefully and when she went down to the restaurant in the morning she found all the cooks and waiters at work. She asked why they hadn't left and the head waiter told her it was because she'd been kind to them.

Another story is about a woman who rode a mule down a steep Grand Canyon trail and was full of fear all the way. But she repeated a line from the Ninety-first Psalm hundreds of times and calmed her fears and told herself she wouldn't even be "stiff" the next day. And she wasn't.

The third story is about a woman who was called into court, on what she considered an unjust charge, to pay a sum of money. But she repeated the Ninety-first Psalm ardently to herself and the case was thrown out of court.

I can't accept. The hair rises on the back of my neck when I read such things. I don't like that business at all.

Am I too sensitive? No, I am NOT. I like that Ninety-first Psalm. It's grand. It's a splendid pledge of faith and trust. It's great organic music rises high above the peevish, squealing yowls of daily life. And it's too good to be used in that way.

That first woman's employee stayed with her because she was KIND. That second woman conquered her fears with common SENSE, and I don't believe that part about her not being "stiff" after riding a mule all day. And the third woman won her case in court because she FOUGHT for her rights.

The Ninety-first Psalm didn't do these things, and that psalm shouldn't be used in that way. Nothing in this life should be USED. Life itself shouldn't be USED. People shouldn't be USED. Friends, wives, husbands, parents, children, sweethearts—none of these should be USED for our own pleasure, our own experience, our own triumph. We should fight our own battles, be grateful for love and friendship and help that people give us, but we must not USE them. We must take life and people and even God into ourselves, to become a part of us, but not to be used and dismissed as a suck an orange and throw the pulp away.

Do I practice what I preach? I confess I do not, not always. But that's my faith, my belief. . . . And that's why it gives me the creeps to read about the "usableness" of a psalm or a human being or any other share of life.

### TOWARDS BETTER UNDERSTANDING

It takes three generations to make a "gentleman" and how quickly the so-called gentlemen can lose everything he has and must start all over again.

The truth of that adage is more apparent today than ever before. But the result is a better understanding between those who never had much and those who once had more, and a breaking of class distinction.

People in general are learning that there are some mighty fine persons in the other classes to which they have not belonged. Those who have had money and did not come in close contact with those whom they considered in a lower social position have been surprised at the ability and fine principles and sound judgment of some whom they have considered of little importance.

Of course it must be taken into consideration that loss of wealth has mellowed many who, heretofore, have been overbearing and ruthless in their dealings with those unable to defend themselves. But, in general, there is a more brotherly, a more neighborly feeling of one class toward another, which hard times has brought about.

If you have not realized that your neighbor needs a break as much as you do, you have not suffered enough, no matter what your troubles.

## Treatment Of Gold Clause Reveals Radical Differences

Obligation Of Contracts Maintained By One Group, While Others Would Base Action On Emergency And Hope For Good Results

Two separate and distinct points of view are revealed in the course of the debate on national legislation affecting the gold clause in public and private contracts. One group insists that obligation of contracts shall not be impaired. Another fears collapse and would judge action in an emergency by its results. The second group includes those who concede that abandonment of gold requirements is irregular.

It is suggested by the NEW YORK JOURNAL OF COMMERCE that "holders of obligations containing such a provision might sue to have the courts construe it a 'gold value' clause, and demand payment in dollars in amount sufficient to cover the known premium of gold over paper money." That paper, however, adds that "there will doubtless be a strong temptation for the courts here to do what has been done by judicial bodies abroad, and to declare the interpretation of the gold-clause as a gold value clause to be against public policy, especially in view of the vast volume of outstanding obligations and other contracts that now include the gold clause in one form or another."

Presenting the background of those who regard the treatment of gold as based on an emergency, the OMAHA WORLD-HERALD argues: "The objective is to make the dollar an honest one. Obviously a dollar that is worth, in terms of goods, commodities and services, as little as 45 cents in one year, and as much as \$2.93 in another year, is anything but honest. It converts contractual relationships into a wild speculation, wrongs debtor and creditor alternately, and holds the producer and worker at its capricious mercy. An honest dollar is one of reasonably stable value and it is such a dollar that President Roosevelt is striving to establish."

In answer to this, the BALTIMORE SUN condemns such action as "an inglorious course," and suggests that "at some future and less excited time the quality imparted must seem to be little less than precarious." The Sun views the course as "an unwarranted borrowing of dollars of high purchasing power and devoting to pay back with cheap dollars," and emphasizes the point that there is "no persuasive show of desperate necessity or even promise of national economic gain."

"Delicate questions of public policy and public ethics" are recognized by the ST. LOUIS POST-DESPATCH, which offers the verdict: "Even those who approve the government's action must feel a tinge of regret at what amounts to the formal repudiation of an obligation. Yet, until prices in terms of gold are raised, the enforcement of the gold clause would involve bankruptcy for a large part of private debtors under gold contracts, a still further increase in the already heavy burden of taxation required to meet service on public debts, and bankruptcy for many local units."

"There is an old saying that necessity knows no law," suggests the HARTFORD TIMES, with the conclusion that "the law that should be possible so to frame the law that the stoppage of gold payments should not operate to confiscate the property of any person without just compensation." With a quotation from Webster that "justice is the great interest of man on earth," the Times comments: "So much justice as is humanly possible should be done by the Federal government in its legislation to suppress and prevent the fulfillment of contracts to pay in gold. To our view the consideration should be regarded as one which is as necessary as can be the need for gold commandeering or for inflation."

"The real issue is sound money," thinks the PORT WORTH STAR-TELEGRAM, with the comment that "a country whose gold stocks are at a record high, and with an embargo against its export, should keep it sound." The CLEVELAND PLAIN DEALER feels that "the recipe for successful administration includes an acceptance of the lessons of experience about blind allegiance to a dead past, and a willingness to build on new and untried lines for the future." The NEWARK EVENING NEWS holds that "it is to be determined by actual experience whether new government issues, long or short term, payable in money will or not in basic money will command the market Federal financing is required to meet the needs of the country."

Favorable consideration for the gold experiment in an emergency is given by the ROCK ISLAND ARGUS, the TOPEKA DAILY CAPITAL, the CHARLESTON (S. C.) EVENING POST and the YOUNGSTOWN Vindicator. The CLEVELAND NEWS believes that, while "another big experiment is under way," it is to be determined by actual experience whether new government issues, long or short term, payable in money will or not in basic money will command the market Federal financing is required to meet the needs of the country."

## RETURN SWARMING BEES TO THEIR FORMER HOME

When a colony swarms the runaway bees should be returned to the hive they have left so that a strong colony will be ready for the honey flow.

After the swarm is returned all queen cells should be removed, the hive body raised from the bottom board about two inches, and 3 or 4 combs replaced with sheets of foundation. Combs of honey should be removed whenever possible. These combs may be given to another colony or extracted honey or the combs may be cut out of the frames and the frames refilled with foundation. The frames of foundation should be placed in the center of the hive.

If the old queen is clipped when the swarm issues, she will probably be lost in the grass near the hive. If she cannot be found and returned to the hive one ripe queen cell should be left when the others are destroyed. Otherwise, the colony will become queenless. A ripe queen cell is brownish at the lower end.

A swarm may be added to the

weak colony or to a colony of avowed strength. Kill the queen in the weak colony. Blow several puffs of smoke in the entrance then shake the swarms in front of the hive, and let the bees run into it. After they are in, blow a little more smoke into the entrance. Give this colony two additional supers at once.

## PROVED Sires IMPROVE VALUE OF DAIRY HERDS

A dairy cattle breeding program based on the use of proved sires will assure progress in the improvement of the dairy herd.

All records of cows in dairy herd improvement association emphasize the fact that cows capable of high production, when fed and cared for in a manner that will enable them to produce close to their maximum inherited ability, will produce milk at the lowest cost. Every dairyman, therefore, who raises heifers for the future herd should be certain that these young animals will be capable of higher production than their mothers.

Offspring inherit factors for milk and butterfat production equally from both the sire and the dam. If the heifers then are to have an ability for increased production over that of their dams, the genetic factors for this superiority must come from the sire. The sire is truly "half the herd" from a genetic viewpoint. Many dairymen, however, have had the experience of changing the herd in one generation from a high producing level to one of mediocrity through the use of a poor sire.

On the other hand, the high average production of many of the leading herds can be traced to the use of one good bull. Great care should be observed in the selection of the herd sire.

The practice of many in discarding the sire before his daughters have come into production is a wrong procedure. A sire that has been carefully selected on a basis of superior breeding should be kept in service until proved by the production records of several of his daughters compared with records of

the dams of the daughters. If the greatest progress is to be made in the improvement of dairy cattle breeding, dairymen generally should become interested in proving the herd sire while the bull is living. Some sires have unusual ability in transmitting a high level of production to their daughters. The aim must be to discover such sires to merit and to keep them in service as long as possible.

The proved sire project of the Agricultural Extension Service furnishes assistance to dairymen in working out exchange of dairy sires. In counties where enough dairymen enter this project, a bull proving association will be formed, educational meetings will be held, and studies will be made of problems associated with evaluation and selection of proved sires.

## Daily Digest

(Continued From Page Four)

BUNE feels that "the great mistake in monetary policy was made when the embargo was placed on gold exports." THE BUFFALO EVENING NEWS concludes: "For the three months ended with March, the exports of gold from the United States were \$49,657,398; the imports were \$173,817,946. The abandonment of the gold standard and even the voiding of gold contracts appear the more amazing in face of this fact that gold had been coming into the country more than three times as fast as it had been going out. It is true that for the month of March alone, the exports were \$28,122,566 and the imports were only \$14,941,526. This, however, was not sufficient turn in the tide to warrant any alarm, especially when the country had reserves of nearly \$4,000,000,000."

## BIGGEST MAP

CHICAGO—Five big motor trucks carted the world's largest map of the United States to the world's fair building here. It measures 63 by 45 feet and weighs 20,000 pounds.

## "CAPT. KIDD" CHART BRINGS WIDOW \$500

(International News Service) NEWTON, N. H.—When her husband died, Mrs. Harlan Colby came upon a veritable "Captain Kidd" chart which promised gold at the end of the rainbow—and it did, by \$500. Mrs. Colby and her daughter first thought it just a whim of the dead

man, but then decided to trace the intricate directions on the map. Between them they paced and roped according to directions the various figures given. Finally they came to the spot marked "X" showing where produced and an hour's digging revealed a glass jar with \$500 in bills buried.

Paying taxes to support schools is especially painful when you reflect that almost everybody responsible for the present state of affairs was educated.

## MUST USE BATHING SUITS AT POOL

(International News Service) WILLOUGHBY, O.—Youngsters of this village lost the freedom of swimming in the nude at their "old swimming hole" in Chagrin river here. Police put a ban on nude bathing when house mothers at the Andrews School for Girls complained that the choice swimming spot was only a stone's throw from the school's dormitories.

## LAWRENCE CO. W. C. T. U.

(MARGARET S. WALKER, President)

Local Discussion Of The Situation Confronting Our Country At Present Time

(Column In Charge of Lawrence Co. W. C. T. U.)

### WHY I OPPOSE THE REPEALING OF THE EIGHTEENTH AMENDMENT

I have been associated during the past 25 years, with an institution primarily interested in the spiritual, educational, social and physical advancement of boys and young men. During that period I have observed the detrimental effects of alcoholic liquors. I have also had the privilege of seeing this distasteful traffic outlawed. I shall certainly do everything within my power to keep it outlawed.

I oppose the repealing of the 18th amendment because I am vitally interested in our young men and boys who must be our leaders of tomorrow. In spite of lax enforcement, I feel that young men and boys of

today have not seen the liquor traffic of pre-prohibition days. I do not wish them to experience the temptations of those days in addition to the many temptations which they face in a changing world today.

However, this is not the place for details. I am inclined to agree with Jay Elmer Morgan, who in a recent publication of the journal of the National Education association said: "Next to the establishing of the Christian church and the founding of the common school, the coming of the 18th amendment has done more for the welfare of childhood and youth than any advance in the history of civilization."

Sincerely yours,  
R. L. MEERMANS,

There's no trick in making fine clothes. We simply use finer, more expensive materials than other brands in our price class.

We can afford to do it because we are the biggest woolen buyers in the United States and get the pick of the best materials at a lower price than smaller users.

By making our own clothes and selling them direct from our factory to you, we also save you the middleman's profit and give you better workmanship, newer styles, superior value and better fit.

Our big selection and one-price policy enable you to satisfy your personal choice as to color, pattern or style, all for the single low price of \$18.50.

A million of the country's most particular men prefer Richman Brothers Clothes to any other brand made. Be open-minded and try them yourself. You'll never want any other kind . . . and you'll save money.

GET BOGUS MONEY  
AT LOW PRICE, NOW

(International News Service)

BOSTON—One would not believe  
that because Uncle Sam went off  
the gold standard, it would make  
any difference in the price of bogus  
money. But it does.

For many years the standard  
price for \$100 worth of fake bills  
was \$35, but when the country went  
off the gold standard, the price  
dropped to \$32.

Federal agents revealed the drop  
in prices after a mail shop propriet-  
or in Roxbury Crossing was arrested  
as a fugitive from justice in Penn-  
sylvania in connection with passing  
bogus bills.

world's fair here. Prominent figures  
in the day's news will be puppetted.

NEW ORLEANS NOW  
HAS ADDED CHARM

(International News Service)

NEW ORLEANS, La.—It's okay to  
get drunk in New Orleans and  
drinkers need harbor no fears of  
jail bars unless they couple their  
wining of Bacchus with too boisterous  
merry-making.

This, at least, was the substance  
of instructions given patrolmen by  
Superintendent of Police George  
Reyer after Louisiana repealed its

bone-dry act and legalized 3.2 beer.  
Reyer told his officers to discon-  
tinue booking persons for drunken-  
ness, a practice of years standing,  
and let it be known that henceforth  
if prohibition is to be enforced here  
such efforts must fall to the lot of  
federal agents.

"Brass Tacks" On The Sunday School Lesson

### The Golden Text

Romans 5:8—"God commendeth his own love toward us, in that, while we were sinners, Christ died for us."

(The International Uniform Lesson on the above topic for June 11 is Mark 15:1-47, The Golden Text being Romans 5:8. "God commendeth His own love toward us, in that, while we were sinners, Christ died for us.")

By DR. ALVIN E. BELL  
Pontius Pilate ranks with the great failures of all history. More truly than that he judged and condemned Jesus of Nazareth did he thereby judge and condemn himself. And yet we must answer the same inescapable question he tried so strenuously to side-step. "What shall I do then with Jesus which is called Christ?" In none of the three ecclesiastical or the three civil trials

did Jesus answer in his own defense against false charges. Maintaining eloquent silence "he opened not his mouth". He answered only the questions asked regarding his person and office. Pilate's effort to wash his hands of guilt "of the blood of this just person" is answered by the creed of countless thousands through the centuries saying "he suffered under Pontius Pilate".

#### Bearing the Cross

Falling in no less than eight specific efforts to acquit and release Jesus as faultless and unworthy of death, "Pilate, willing to content the people, released Barabbas unto them, and delivered Jesus, when he had scourged him, to be crucified."

"And he bearing his cross went forth into a place called the place of a skull . . . where they crucified him." Falling exhausted under the burden of the cross "they compel one Simon a Cyrenian who passed by, coming out of the country, to bear his cross". What an unexpected privilege that was to which Simon was compelled and which immortalized him and his sons! Ours is the same privilege as we "take up our cross and follow Him."

#### The Wondrous Cross

Six hours Jesus hung upon the cross under the title Pilate had written to sting those who drove him to crucify him: "Jesus of Nazareth King of the Jews." Pilate wrote better than he knew for Christ is King indeed. "In like manner also the chief priests mocking him said, He saved others; himself he cannot save." They too spoke more wisely than they knew, for this the very heart of the gospel and the essence of all for which the cross stands.

Upon that cross Jesus was not a passive victim, but rather he was supremely active, as he had said, "I lay down my life for the sheep; no man taketh it from me; I lay it down for myself." This activity is revealed in his seven sayings from the cross, only the fourth and sixth of which Mark records or refers to. In these we have intercession, "Father forgive"; absolution, "Today with me in paradise"; consolation, "Woman, behold thy Son"; desolation, "My God, why hast thou forsaken me?"; tribulation, "I thirst"; satisfaction, "It is finished"; and resignation, "Father into thy hands I commend my spirit". Thus the Son of Man gave his life a ransom for many.

#### The Effect of the Cross

The effect of the cross upon God is symbolized by heaven's act in rending in two the veil of the temple from the top to the bottom. This meant that "the way into the holiest was made manifest" and that now we may "have boldness to enter into the holiest by the blood of Jesus". The rent veil was the Father's "Amen" of approval to the ransom made by his Son.

The effect of the cross upon man is evidenced in the conversion of the penitent thief. It is further evidenced in the testimony of the Roman centurion who had charge of the crucifixion. "Truly this man was the Son of God." Christ lifted up thus began to draw all men unto himself.

cized everything I did and threat-

killed her."

within the confines of a nest at a  
poultry house of a hotel in adjoining

is permitted by the hen to "drop in"  
and feed the kittens.

# SEVENTH WARD NEWS

## Engineers' Wives Meet On Thursday

Plan For One More Meeting Before Closing Summer Activities

A very good business meeting of the Grand International auxiliary was conducted Thursday afternoon in the city building. It was quite well attended in spite of the intense heat.

One more meeting of G. I. A. will be conducted, then a lapse of activities until September.

The next meeting on June 22 will be unusually important and interesting. During the business meeting the delegate to the convention which is in progress this week at Cleveland will be presented.

A social time will follow, with members whose birthdays are in June and July as hostesses. Those whose birthdays are in those months are asked to call the chairman of the hostess committee, Mrs. C. D. Wharton, before the next meeting.

## YOUNG PEOPLE HAVE PARTY LAST NIGHT

A party was enjoyed last evening by the senior Christian Endeavor of the Mahoningtown Presbyterian church at the home of Philip Guy, West Madison avenue.

Sixteen were present. This number included several guests of the members.

A social time was featured with games on the lawn of the home. Lunch was served by a committee consisting of the Misses Alma Smith, Edith Carnes and Margaret Wilkison.

## FLOWERS FOR CHURCH

The Mahoning Methodist church is asking the congregation to bring flowers to the church on Sunday morning in order that the pulpit and platform may be decorated for the children's day exercises.

## GENUINE SCARECROW

It isn't very often that you can find a real old fashioned scarecrow right inside the city limits. Perhaps that is the reason so much interest

has been centered on the fellow standing in a lot on Mahoning avenue near the intersection of North Liberty street. Arrayed in an old brown suit and felt hat, the scarecrow presents an odd sight and is enough to keep the boldest of crows away.

**RUSH TO STREAMS**  
A sudden rush was made to all the swimming holes in this vicinity yesterday and is continuing strongly today. Several favorite spots are located in both the Shenango and Mahoning rivers here and have attracted several hundred bathers in the past 48 hours.

Scores were swimming yesterday in the Mahoning at the end of West Clayton street. Others went to Flat Rock, out the Mt. Jackson road district.

**PLEADS GUILTY**  
A hearing was held Thursday before Alderman H. G. Coates on a charge of "malicious mischief" preferred against Mrs. Josephine Gates by Mrs. Mary Hammed.  
Mrs. Hammed claimed that Mrs. Gates broke down the fence on her property and let the cow loose. Mrs. Gates pleaded guilty and agreed to repair the damage.

**WILSON AUXILIARY**  
A business meeting of Mabel Wilson auxiliary was conducted at Malta hall Thursday evening. Matters of interest to the organization were talked over. The next meeting will be held on Thursday evening, June 22.

**NEW BOOKS HERE**  
Three new books were added to the pay shelf of the Mahoning library Thursday. They are:  
"Shining Palace"—Parmenter.  
"The Album"—Mary Roberts Rhinehart.  
"Zest"—Charles G. Norris.

**SMALLEST MARIGOLD?**  
C. E. Dungan has in his garden what he believes to be seventh ward's smallest Marigold in bloom. The dainty little flower is hardly four inches in height, but is in full bloom.

**BOY SCOUT MEETING**

## Girl Scout Camp Plans Completed

Director Of Camp Leaves After Conference Here With Local Executives

Miss Evelyn Spencer of Toledo, O., left here Thursday after spending two days with Mrs. W. H. Hanger of Wallace avenue, chairman of the camp committee of the New Castle Girl Scout organization.

Miss Spencer has been appointed director of the New Castle Girl Scout camp at Kennedy's Mills this summer. She came here this week to confer with the camp committee and with the Girl Scout council in regard to making definite plans for the two week period in early August. Miss Spencer has had long experience in this work and the local organization considers itself most fortunate to secure her services.

Camp will be limited to 100 girls.

Sharon Girl Scouts will join the local in camp this year. A large delegation is expected to attend from that city, and registrations are being made even now.

"First come, first served," will be the system followed in registration. None will be taken after July 15. It is probable that the quota will be met much earlier than that.

Something new this year will be the Gypsy unit, composed of girls older than those in the Pioneer unit. It will be limited to 12 members (6 from Sharon and 6 from New Castle). Many special activities are being planned for this group, and may include a trip by motor to the Akron Girl Scout camp for a three-day stay.

The Pioneer unit will be limited to 16 members (8 from Sharon and 8 from New Castle).

Camp will be conducted entirely on the troop system. All meals will be eaten in the main dining room.

Services of a splendid staff of counselors have been secured. Miss Leona Sankey will have charge of dramatics. Miss Ingeborg Hallgren will have charge of handicraft. Miss Frances Carlson will be there as will the following unit leaders: Mrs. Earl Guy, Miss Hannah Hastie of Sharon, Miss Elizabeth Daugherty of New Kensington, Miss Bonnie Christman and Mrs. Sid Smith, Miss Julia Marshall of Sharon, Miss Mary Elizabeth Myers of Sharon and Miss Lucille McGuire will have charge of various activities. These, with Miss Martha Drake of Sharon, Miss Lenore Beall and Miss Virgil Wettich, make up a staff of leaders unprecedented in former years.

There will be three adult Red Cross life savers on duty at all times, with several junior life savers as observers. Miss Jane Kunkle of Sharon will be in the young girls' unit.

Mrs. Doris Davies will be business manager and buyer. Herbert Christman will be handy man.

All activities will be under Miss Evelyn Spencer's supervision. Miss Spencer left here for Pine Grove camp in the eastern part of the state, where she will have charge of the training course. In early July she will have charge of the Williamsport Girl Scout camp.

**PAY FOR DAMAGE**  
Careful investigation of any damage done to city school property is made by Robert L. Stewart, special officer of the school board. In many cases prosecutions are made.

Five boys were apprehended this week, pleaded guilty to destroying some shrubbery at Benjamin Franklin junior high school, and settled the damage without having information sworn against them.

You can tell when the tide turns. People will quit hunting for somebody to blame.

## Industry Control Bill Speeded Up By Senate Today

Administration Forces Hope For Passage Of Bill Before Saturday

## BATTLE OVER REVENUE RAISER

Industrial Control And Public Works Bill Final Act For Legislators

By PAUL C. YATES  
International News Service Staff Correspondent

WASHINGTON, June 9.—Riding rough-shod over insurgent groups and beating down all major attacks, administration forces in the senate today waged a spectacular struggle to force final passage of the industrial control and \$3,300,000,000 public works bill in time for final adjournment of the special session tomorrow night.

Wary and haggard senators, feeling the effects of a grueling 13-hour verbal rough-and-tumble over the industrial control provisions, wrangled as to methods of apportioning the \$400,000,000 federal highway grant.

Discuss Plans.

The only big fight remaining, however, centered on how to raise the \$220,000,000 annual revenue for public works. Three separate plans were up for consideration. One involved increased income and gasoline taxes, favor by the house; another, increased corporation and gasoline taxes, approved by the senate finance committee; and the third, a general manufacturers' sales tax, which found support both in Republican and Democratic ranks.

Senator Harrison (D) of Mississippi, chairman of the finance committee, declared: "We will pass the bill tonight and send it to conference. I still believe we can adjourn tomorrow night."

In the dramatic session of yesterday, lasting from 10 a. m. until 11

p. m., repeated assaults upon the bill were crushed by the huge administration majority.

**Tariff Provision.**

Throwing to the winds a tariff policy of many years standing, the Democrats joined Republican allies to write into the bill a tariff provision even more drastic than that approved by the finance committee.

This provision, offered by Senator Walsh (D) of Massachusetts, would give the president power to impose embargoes and quotas against foreign imports, together with import taxes in the form of licensing charges against American firms receiving foreign shipments.

As soon as the result was announced, Senator Long (D) of Louisiana dolefully predicted, "The Democratic party dies tonight—it is burying itself."

**Oil Control Jumbled.**

Norris led a successful fight to strike from the bill a proviso which he asserted might legalize the "yellow dog contract."

Without a record vote, the oil control machinery sought by Secretary of the Interior Ickes was junked.

The senate retained the oil pipe-line control provisions favored by independent operators. Among these were a grant of power under which the president could divorce pipelines from their parent companies if they engaged in monopolistic practices, and a prohibition against the shipment of "bootleg" oil.

## Erie Young Man Slaying Victim

Man In Ambush Kills Wrong Man With High Powered Deer Rifle

(International News Service)

ERIE, Pa., June 9.—Louis Hisler, 21, was shot and killed from ambush here Thursday, the innocent victim of what police said was an attempt by James McClure, 29, to slay William Ruhl, 28.

Ruhl, who was walking with Hisler, was not injured.

Shortly after the shooting, McClure gave himself up to police. He

charged Ruhl had been familiar with his estranged wife, the mother of a month-old baby, and admitted intending to kill him for revenge, according to authorities.

A formal charge of murder was being drawn up by detectives.

McClure fired from a window in his home. He used a high-powered deer rifle. The bullet struck Hisler in the head, killing him instantly.

"Hi, there, you've dropped your pocketbook" said a stranger to a farmer, who had just been to a dealer to try to sell some oats.

**SPITE ARREST MAY COST HOME OF COP**

(International News Service)

DENVER—An arrest for disturbance, which the courts declared was a bit of neighborly spite, may cause Patrolman Michael Clark, veteran Denver policeman, to lose his home and other personal possessions.

Clark arrested Mrs. Margaret Machette on the complaint of a group of neighbors. Mrs. Machette was convicted in justice court, appealed

to the district court and was acquitted. Then she sued Clark and five others for \$51,000. She won a judgment for \$2,500.

In the meantime the other defendants had left the state, making Clark fully responsible under Colorado law.

**ENGINE TOOT GETS BLAME FOR STAMPEDE**

(International News Service)

DENVER—The toot of a locomotive whistle can stampede a herd of

cattle, a jury in Justice of the Peace James N. Sabin's court decided.

The question arose when Louis Karsh, Denver cattle dealer, brought suit for \$300 against a railroad company, declaring that he had two carloads of cattle in the stockyards at Monte Vista, Colo., when a railroad engineer sounded his whistle, causing the cattle to jump over a fence.

### "NOW CAN EAT ANY KIND OF FOOD, AND NO CONSTIPATION"

Mr. Durigan Finds Relief in Kellogg's ALL-BRAN

Here is his enthusiastic letter:

"Am 70 years of age, and for 40 of these years there never was a week but what I had to take a pill or some kind of cathartic.

"I took everything, but gained only temporary relief. Until last spring my daughter, who is a nurse in a hospital, brought me some Kellogg's ALL-BRAN.

"At the end of the week, I knew I had something that was it, and I kept on taking it. I haven't taken a cathartic since. I can eat meat any time, as often as I like, or any other kind of food, and no constipation." Mr. L. M. Durigan, 6811 Buffalo Ave., Jacksonville, Florida.

Laboratory tests show Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to help muscle tone. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that of lettuce. Inside the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much safer than patent medicines. Two tablespoons daily are usually sufficient. With each meal in serious cases. If not relieved this way, see your doctor.

Sold in the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

## Atterbury Urges Consolidation Of Big Rail Systems

President Of Pennsylvania Railroad Speaks At Harvard Celebration

(International News Service)  
CAMBRIDGE, Mass., June 9.—Nationwide consolidation of the railroads into two great systems was urged today by Gen. W. W. Atterbury, president of the Pennsylvania railroad, as the most effective means of resuscitating the carriers, in an address at the celebration of the 25th anniversary of the Harvard Graduate School of Business Administration.

Such a plan of consolidation, if "intelligently" followed, General Atterbury said, would result in placing the railroads in a secure financial position, producing the best possible service at the lowest practicable cost and in stabilizing employment.

Lauds Roosevelt  
Blaming the present depression on the nation's inability to make full use of its productive facilities under the modern system of domestic and foreign exchange and of credit and money, General Atterbury warmly lauded President Roosevelt for his efforts to solve the dilemma.

"I admire the president's courage," he declared. "I admire his candor in telling us that in many respects he is experimenting and feeling his way. I wish him every success. I believe he has already achieved real and definite results, and to a degree which I, for one, frankly admit I would not some months ago have thought possible."

### WAR VETERAN DIES AFTER YEARS' PAIN

(International News Service)  
CHARLOTTE, N. C.—Death from a wound suffered in the battle of Fort Fisher during the War between the States has just overtaken Jilson Ashberry Sheek, 85.

A bone infection resulted from the wound and for 26 years the Confederate soldier fought it off until he was finally forced to take to bed an invalid. He was bed-ridden from that time until death.

Sheek enlisted in the Confederate Army at the age of 17.

## SPANISH PRINCE TO WED COMMONER

Prince of Asturias

Senorita Sampedro

Because he "wants a little happiness in life" the former Prince of Asturias, heir apparent to the throne of Spain, before his family fled, is braving the displeasure of his royal father, by wedding Senorita Edelmira Sampedro, daughter of a wealthy Cuban, now dead. So upset over the affair

is King Alfonso that he refuses to attend the ceremony, to be held at Lausanne, but the prince's mother, the former Queen Victoria, is expected to be present. The prince is said to have applied to the Spanish government to become a "simple citizen" of the republic.

## Licenses Still In Hands Of Treasurer

None Lifted Since First Of Week—Opinions Differ On Fee Distribution

County Treasurer William O. Pitts reports that no more beverage licenses have been taken out since the beginning of the week. There are nine wholesale and eighteen retail licenses, eligible to be issued. As the parties have filed bonds in all of these cases with the exception of one, it is presumed that they may still take them out. Treasurer Pitts announced that he expected all to be taken out by Saturday, June 10, but as the bonds have been filed, it is understood that the applications will not be cancelled, even if the licenses are not lifted by that time.

While at Washington, Pa., attend-

ing the reception of Gen. Edward Martin last night, County Treasurer Pitts met a number of county treasurers from other counties and discussed with them their methods of handling the license situation and the disposition of the license fees paid in. He found that in some counties the treasurers are keeping all of the money for the use of the county, while in others it is being distributed to the different subdivisions in which the licenses were issued.

The law relating to the distribution of the license fees seems to be ambiguous, and until it is clarified by a court decision, it is likely that there will be more or less confusion in the distribution of the license fees.

As to the local situation Treasurer Pitts says that his attorney, J. Glenn Berry, is satisfied that New Castle should get the license fees paid by city applicants, but the disposition of fees in boroughs and townships has not yet been fully determined.

Imitation is also the flattest sin-

## Ask City For Removal Of Pole

Stands In Way Of Building Operation Gilfillan Reports

Sun Oil company intends to construct a service station on the southeast corner of Atlantic avenue and West Washington street, according to J. C. Gilfillan, who appeared before council in session at city hall today. He made a request that the city ask the Bell Telephone company to remove a telephone pole which Gilfillan said is an obstacle to

a part of the construction operation. The company is reticent, he explained. It was said by Councilman Stanley Treser that the pole is at the head of a conduit which has 600 pairs of cables and the cost to the company will range from \$800 to \$1,000.

Council decided to view the situation this afternoon.

## CITY'S NEW TRUCK DELIVERED TODAY

# River Route To Be Inspected By Army Engineers

Chairman Of Board In Washington Announces Visit Will Be Made In July

## BOARD WILL GET INSIGHT INTO NEEDS

Further impetus to the canalization plans for the Beaver and Mahoning rivers has been given added impetus, with the announcement that members of the U. S. army board of engineers will make a personal inspection of the rivers project from the mouth of the Beaver river to Youngstown, some time during the month of July.

The announcement was made public in Washington yesterday by Col. James J. Loving, chairman of the board. Col. Loving stated that the members of the board have so many matters before them at the present time that they will be unable to make the inspection before July 1.

While no definite information has been received by the officers of the Tri-River Improvement association, relative to the report of the engineers, it had been previously announced by the engineers that the report would be ready after June 1, and is expected to be sent to Washington before July 1.

It is believed that the board of engineers will get a clearer insight into the needs of the district for water transportation by going over the route personally and inspecting the facilities available.

Before entering Franklin he attended Lincoln and Garfield classes.

Hoskins was directed to give the contractor a notice to the effect that the removal of the rails at the intersections is satisfactory to the city.

# Father Weisenberger To Celebrate Jubilee

Many Friends And Former Parishioners Will Go To Butler For Event

Rev. Father Aloysius J. Weisenberger, pastor of St. Peter's church, Butler, and former pastor of St. Joseph's parish in this city, will on Tuesday, June 13, celebrate the 25th or silver anniversary of his elevation to the priesthood in St. Peter's church, Butler. The service will be held at 10 a. m., E. S. T., on the morning of that day.

Rev. Father Joseph A. Doerr, present pastor of St. Joseph's parish, has been selected as the preacher of the jubilee celebration and he, as well as many members of the local parish, are planning to be present at the celebration. In addition to the silver anniversary of Father Weisenberger, it is also the 16th anniversary of Father Doerr, which makes it a unique affair in many ways, as both are celebrating an anniversary in their life as priests.

## Jurors Get Only \$3 Per Day For Attending Court

Grand jurors who served at court this week received only \$3 per day for their services, as against \$4, which was the regular fee previous to the last session of the legislature. The cut to \$3 made by the legislature will affect the jurors who are called for criminal court next week and all future jurors.

The last legislature had before it a number of measures affecting salary cuts, but the most of them failed to pass. They probably singled out the luckless jurors on the theory that there wouldn't be so much backfire from this so-called economy move as there would be in cutting the pay of organized politicians.

**Council Approves  
Work Relief Rules**State Insurance Board Takes  
Care Of Injured  
Employees

Council met in city hall today and adopted rules relating to work relief employees submitted by Solicitor Robert White. The rules are now effective. The city, he explained, pays a fee of 25 cents insurance for each man who is put to work to the State Emergency Relief Insurance board as they do not come under the workmen's compensation provisions since the new state act was passed.

Under the new act of legislature the State Emergency Relief Insurance board takes care of all injuries. All work relief employees' cards must be signed by Rev. Dr. G. S. Bennett, head of the Lawrence County Emergency Relief association. The workman can obtain no relief unless the card is signed by Bennett. No substitutes can be put to work by an employee.

When the man reports for work the foreman takes the card, signs it and after the man has done the work the card is sent to the city solicitor's office. In case one of the men is injured he must report it immediately at the city solicitor's office.

**City Makes Refund  
For Sewer Expense**

Council today voted in formal meeting at the city hall to pay approximately \$9.00 as a refund to Mrs. Anna McGurk, Butler avenue for repairs to a sewer leading from Butler avenue to her home.

The city engineer, Harry Hoskins, reported to council today that recently the city had a cast iron pipe two feet long in place of a section which had been clogged by cement. He believes no further trouble will be experienced.

Previously Mrs. McGurk had had work done on the sewer.

**Plans To Take  
Care Of Complaint**

A rooster belonging to Harry Rosenblum, 508 East Leasure avenue, apparently twisted in its time, because of daylight saving time in effect here, has been awakening the residents of the district about three a. m. in the morning and keeping them awake as he expressed his joy at living by crowing.

Complaint as registered with the police today and Mr. Rosenblum was informed that he should do something to still the crowing of the rooster.

Advised that while there was no law against him having the rooster, or the rooster crowing, he said that he planned to eat the rooster as soon as he should happen to have some visitors.

He said he hoped to use it before the end of the month.

**PENITENT THIEF  
Returns Money**

For several weeks past the Cole-Reid Agency, Centennial building, has been missing small sums from the cash drawer.

One time it was \$2, another time \$1.50, then \$1 and other amounts.

A few days ago a dollar bill was found lying on the floor.

The next day a note was found shoved under the door, in which there was \$4.50 in cash and a note, in which the writer told of taking the money from the cash drawer, and expressed deep regret.

The amount returned just about covers recent small thefts from the cash drawer of the agency.

Lady—Dear me, that was a silly thing to do. What was your work?

Tramp—I was a contortionist.

### Tommy Armour Has Big Lead In Open Match

Armour Turns In Sub-Par 68 For Tricky North Shore Layout

### SARAZEN-HAGEN TRAILING BEHIND

By DAVIS J. WALSH  
International News Service Sports Editor

CHICAGO, June 9.—It must be that they mean to go on with the National Open Golf championship today and tomorrow, for the place was still roped off this morning. Every badge seemed to have the bosom it came with and, if the help were to go back to selling the 15-cent sandwiches again for only 15 cents, they had received no instructions from the management. So it must be on. Though nobody knows exactly why, because the thing began yesterday and to every practical purpose the beginning was strictly the end.

This came when Tommy Armour, the transplanted Briton—he's always the Scotch-American when he wins—shot two 34's for a 68 and a course record in the opening round, beating the field by five strokes. That is, a few were beaten five strokes and the many by anywhere from ten to twenty.

**Very Big Lead.**  
No man in all the history of the open championship ever has been that far in front at the end of eighteen holes.

Nobody else in the field could catch par during the long, windswept day. He caught it and left it four strokes back, with six birdies, ten pars and two buzzards. It is difficult to foresee such a man coming out today and falling as completely as he must, if the others are to have a chance.

As a matter of fact, he can make all the mistakes that failed to show yesterday and still finish out of the suburb or red by Saturday night. For instance, the dangerous contention, to state the case charitably, might seem to be vested in these men:

Walter Hagen, the old champion, up there in the money at the end of the opening day for the first time in many years. He is five strokes back, with 54 holes to go. So are Johnny Revolta, Henry Clui, Craig Wood and others.

Gene Sarazen, the two-time champion of America and Great Britain, is six strokes off the pace. He is coupled with Charley Mayo, Tommy Creavy, former P. G. A. champion, and Joe Kirkwood, among others.

"You seem to be very feeble," said the medical examiner for the Stickfast Life Insurance Co.  
"Well," explained the applicant, "the agent nearly talked me to death before I surrendered."

### Dempsey Will Just About Break Even

Schmeling Draws Down \$80,400 For His Share, Baer Gets \$30,000

(International News Service)

NEW YORK, June 9.—Jack Dempsey will be lucky if he breaks even on last night's fight. The promoter said before the battle that he would have to draw a net gate (with the government tax of 10 per cent and the state of 5 per cent deducted) of \$200,000 to pay all bills. The net gate amounted to \$201,092.27.

Forty-eight thousand fans paid to see the battle. The gross gate including both government and state taxes amounted to \$239,195.55. There were 3,900 who saw the fight on complimentary tickets.

Schmeling received 40 per cent of the net gate—approximately \$80,400. Baer's contract called for 15 per cent and his check will be for approximately \$30,150.

The Yankee Stadium was paid ten per cent of the net gate, approximately \$20,000.  
Uncle Sam is enriched approximately \$23,900, getting ten per cent of the gross. The state is richer by \$10,800, receiving five per cent of the gross gate after deducting ten per cent of the government tax.

### Wagner Honored By Pittsburgh

"Wagner Day" At Forbes Field And Old Timers Will Play Game

"CY" YOUNG TO FLING THEM UP

By VICTOR J. JACOBS  
International News Service Sports Writer

PITTSBURGH, June 9.—Turn back the pages of time! It is the 1895-1905 decade and we see three young men making baseball history. One is "Hans" Wagner, brilliant Pirate shortstop; another is Fred Clark, firebrand manager of Pittsburgh, and the third is Denon, "Cy" Young, called him, Young, outstanding American and National League pitcher.

Virtually their every play and decision on the diamond excited the stands in the age when baseball had only begun to establish itself as the "national pastime."

**Records Stand.**  
To this day their record performances grace the annals descriptive of baseball's growth. Clark is down on the records as the left fielder and manager of the Pirates in their pennant winning year of 1901, '02, and '03. Wagner, baseball's all-time shortstop, hardly needs to be introduced. And the same goes for "Cy" Young, who has more records to his credit than any other pitcher down to today, modern or past.

The fans will recall the thrills of a score of years ago when the three stars of yesteryear and a host of other old-time players step out of the dim past to take part in an "Old-Timers" game.

The game will feature an elaborate program arranged to do honor to Honus Wagner.

**Young To Pitch.**  
Cy Young will step on the mound once again. He will pitch an inning or two as will Bill Killeen and others. George Gibson, present Pirate manager, once more takes up his old duties as catcher. Wagner will be out there in shortfield and Clarke in the left garden.

Jewel Ens, Cincinnati coach, aMadox, Rheam, Crandall, Abbatichio, and more than half a dozen other names that carry a special significance to spectators twenty years ago are to be seen in a box score again.

A huge parade will precede the attraction at Forbes Field. The Wagner Day agenda also calls for a field meet between the Cincinnati Reds and Pirates prior to their league encounter.

Wagner will be feted at a banquet in the evening.

Reservations for the affair have been made by such dignitaries as Mayor John S. Herron, former Governor John K. Tener and President John Heydler of the National League.

Times will again be normal when you hear nobody muttering sorrowfully that speculation is wicked.

### Maxie Baer Winner Over Schmeling By Technical Knockout

California Fighter Punches German To Sleep In Tenth Round Of Bout

Right Hand Punch On Chin Lays Schmeling; Baer Will Next Meet Sharkey

By JAMES L. KILGALLAN  
International News Service Sports Writer

NEW YORK, June 9.—Max Baer, a swash-buckling, pier thumper from California, stands out today as the top notch challenger for the heavyweight championship of the world—and he owes this distinction to his good right hand.

That right hand whizzed through the air in the tenth round of his battle with Max Schmeling of Germany last night and struck the one-time heavyweight champion on the chin like a bolt of lightning. It was loaded with TNT. It hit with such devastating force that the cagey and courageous teuton was sent reeling into the ropes, wobbly-legged and glassy-eyed.

**Healthy Punch**  
It was the bell-ringer of the fight, the forerunner to the knockout which followed dramatically less than a minute later. It wasn't a "knockout" punch in the strictly technical sense, but the money rode on it.

That roundhouse right—it was one of those "telegraphed" swings from Livermore, California—Schmeling had either ducked or rolled dozens of times. But this time, as it came whirling through the humid atmosphere, the German seemed to stand transfixed, a perfect target beneath the blazing spotlight.

Schmeling's knees buckled as that fatal right ricocheted against his mark and into his somber eyes came a strange look. He staggered against the ropes and it seemed as if he were about to crumple to the floor. But not! With the instinct of a true fighter, the German forced himself erect and gamely met the rush of his foe.

Ruthlessly, and with the killer's instinct Baer pounced upon his victim and shot a dozen or more pile-driving lefts and rights to the head. Bang, bang, bang, bang—they went in, a rapid and fearful succession of bone crushing blows.

And then the German fell.

**Big Mob Roars**  
Slowly, as if it slow motion, he sagged to the canvass. The mob—the 60,000 within the arena—roared with excitement as Referee Arthur Donovan stood over the fallen gladiator and began to count. Baer's chest heaving and smacking his gloves together in a form of nervous agitation, fell back to a neutral corner.

Schmeling lay there, motionless for four or five seconds. At the count of seven he groped to his knees but the fire of battle seemed to have disappeared from his eyes. He put up his hands feebly as the towering Baer rushed at him like a madman. Once again, Baer smacked him into the ropes. Again the strapping Californian unleashed a flurry of lefts and rights to the head.

**Referee Stops Fight**  
No man could stand them. But Schmeling, as game as they come, wouldn't quit. There is no saffron in his makeup. He kept "taking it." Even in defeat he had to admire the man. His head was plastered from side to side with lefts and rights but still he pawed away helplessly, trying to stave off his adversary.

Baer, as if in pity, halted in his fury for a brief moment and glanced at the referee. And then, as Baer was about to unlimber a lethal right, which might have had a serious result, Referee Donovan humanly jumped between the men and stopped it.

### Baer Admits He Will Marry June Knight Real Soon

After Divorce Is Granted, Baer Will Wed Musical Comedy Star

(International News Service)

NEW YORK, June 9.—Max Baer today admitted he will wed June Knight, one of Broadway's beautiful musical comedy stars, when he gets his divorce.

Baer today told the International News Service he was going to California to get his various law suits, including his divorce, settled and when and if he gets his decree, he will marry Miss Knight.

"She's a wonderful girl," said Max. "and I'm for her 100 percent. We are both young and I know we'll be happy. Of course, our hands are tied until I'm divorced but once I am, then it will be wedding bells for me."

## Foxx Sets New Home Run Mark

Slugging Philadelphia First Baseman Slams Out Three Homers Against Yanks

### PIRATES AND INDIANS LOSE

By LES CONKLIN  
International News Service Sports Writer

NEW YORK, June 9.—Jimmy Foxx slugging first baseman of the Philadelphia Athletics, took a seat in baseball's hall of fame today.

By hitting three home runs against the champion New York Yankees yesterday, the New York king of 1932 hung up three bull's eyes. He beat the Yankees, 14 to 10, for Philadelphia's first victory over the Yanks this season, took second place in the home run derby, and set a new modern mark for home runs in consecutive times at bat.

#### New Modern Record

Foxx had hit a four-bagger in his last time at bat against Washington Wednesday. By hitting a homer in his first three times at bat against New York yesterday, he set a mark that had not been equaled since Bobby Lowe of the Boston Braves hit four consecutive homers in 1894.

Foxx increased his home-run total for the year to 11, but Babe Ruth kept the lead by smacking No. 12 and Lou Gehrig tied Foxx for second place by smacking his eleventh.

The A's sewed up the game in the eighth inning when they scored five runs, aided by an error by Crossett.

#### Hubbell Win Eighth

Homers by Peel, Terry and Ott. Peel's coming with the bases full, enabled the Giants to trim the Phillies, 7 to 6 and stay in front in the National League race. Hubbell finished for New York and was credited with his eighth victory of the season.

The St. Louis Cardinals kept pace with the Giants when Dizzy Dean the belligerent boxman, held the Cubs to three hits and won a 2 to 1 duel from Lon Warneke.

Eppa Rixey, of Cincinnati, Pittsburgh's perennial nemesis, again played Svengali against the Pirates and won 8 to 2.

The Boston Red Sox shaded Washington 4 to 4 in the first game of a double header, but the Senators slugged their way to a 12 to 3 landslide in the nightcap.

#### Indians Lose

Detroit nosed out the White Sox.

3 to 2 in the eleventh inning on an error by catcher Frank Grube. The Sox dropped to third place. Cleveland's losing streak reached five straight when the Indians lost to the St. Louis Browns 5 to 3. Crouch's homer featured the St. Louis attack.

## Coaltown Wins In Long Game

Coaltown Takes 3 To 2 Victory Over Marshalls In Game At Marshalls Field

Coaltown A. C. baseball team took a 12-inning 3 to 2 victory over the New Castle Marshalls last evening at the Marshalls Field. The game was a pitching duel all the way, with Mayberry of Marshalls, opposing Donaldson of Coaltown. Mayberry fanned 20 men and allowed only three hits. Donaldson fanned 23 and allowed only two hits. A Patterson broke up the game in the twelfth inning with a home run wallop.

It was one of the best pitching battles of the year in this city. Coaltown will play West Middlesex Saturday afternoon at 2:30 o'clock at the Coaltown field, it was announced today.

Some Reaction  
In Stock MarketOils And Tobaccos Resist  
Downward Trend; Fac-  
tors In Change

(International News Service)  
NEW YORK, June 9.—The stock market suffered a shakeout today with losses running to more than 7 points as bullish confidence was shaken by the week's series of shocks.

Starting with the Atchison preferred dividend cut, the Rock Island bankruptcy and the collapse of the Chicago & North Western issues, the day's news brought the bar to the Western Union-Postal Telegraph merger in the elimination from the rail bill of the rider that would permit the consolidation. Added to these was the formal declaration of the German moratorium.

The wire company issues led the slump. Postal preferred breaking more than 7 points and Western Union more than 5 before support appeared.

The rails suffered another sinking spell, with North Western common losing 2 points of yesterday's late rally following denial of reorganization rumors.

A wave of selling swept over the list in the first hour, sending the ticker 5 minutes behind. Oils and tobaccos alone resisted the downturn, the former aided by inclusion of petroleum control in the industrial recovery bill. Tobaccos were stimulated by fresh reports of an imminent rise in cigarette prices. Dairy issues were better also.

J. W. Mayne Points Out  
Council Has Failed To  
Elect Qualified  
Collector

Steps Are Taken To Prevent  
Repetition Of Difficul-  
ties Of Last Year

ELLWOOD CITY, June 9.—In order that the difficulties of tax collection of the past year may not again occur, School Director J. W. Mayne presented a resolution accepted by the board, that it elect or appoint a qualified person to collect school taxes for the year of 1933.

The resolution was passed at the regular meeting of the board last night in the Lincoln school. Following the reading of the resolution Mr. Mayne stated the Board of Education should adhere to the law and various technicalities as council is doing. The board therefore could not accept Mervin Cunningham, recently elected assistant borough clerk who was to act in the capacity of tax collector since the resignation of E. E. Moyer, to be officer of tax collector since he has not been a resident of this city for 60 days. Cunningham would not be able to qualify until July. It was further pointed out that he could not obtain the required bond in 15 days to qualify as tax collector.

Director Mayne stated that the Borough Council has been given the option to elect a qualified tax collector within 30 days after the resignation of Mr. Moyer. This period is up on June 12. If council neglects to fill the vacancy by this time the School Board is authorized by law to elect or appoint a qualified tax collector. In view of the facts presented by Mr. Mayne the board decided to adjourn the meeting until June 15 before acting on the matter. If council fails to elect a qualified tax collector by this time the board intends to elect Secretary G. Blaine Hancher to collect the school taxes for 1933. Mr. Mayne pointed out that this step is necessary since whoever will be elected as tax collector in September will not be able to collect taxes until 1934. Mr. Moyer is still responsible for the collection of 1932 taxes.

In connection with this the board exonerated former collector E. B. Moyer from a sum of \$3,896 for personal assessments of per-capita tax. The finance committee headed by H. M. Cresswell had checked the exonerated list and made the above recommendation.

Some News, Some Views, But  
Mostly Just Observations  
Of Interesting Things  
Around New Castle

Mister Hitler has something else  
to worry with now, in addition to  
the heat. The apple of his athletic  
eye, Herr Maxie Schmeling, whilom  
champion of the world, met up with  
an accident last night, the accident  
being Max Baer. As one Max to an-  
other it was a belt on the button  
that had the German lad walking  
on his heels.

As to the present spell of humid-

ity we had thought to say nothing  
about it, nothing at all. But when  
Harry Bell takes off his vest, that's  
news. And the vest came off today.  
Another victory for Old Sol.

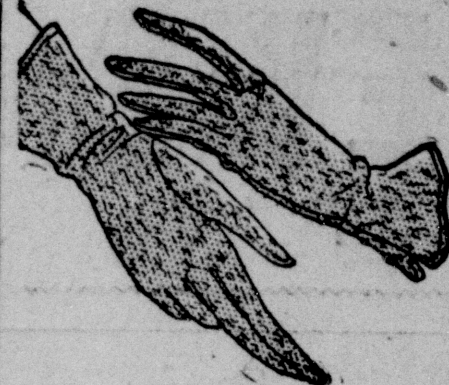

Here's one we can't use any names  
on but the gentleman in question is  
a lawyer with boys in the family.  
One of the youngsters had a date  
the other evening and thinking to  
give him some parting advice the  
Blackstonian said as the junior  
walked out the door. "Remember  
son, be a gentleman tonight, act  
like your father would under similar  
circumstances." And the answer  
came back, "can't do it dad, they  
arrest people for acting that way  
these days."

And knowing the old man as we  
do, that answer stands as a twelve  
o'clock bull's eye. That advice of  
acting like your father would doesn't  
always presume impeccable conduct.

The roads must have got thor-  
oughly dried between here and the  
home of the Poet Laureate of the  
Slippery Rock. All of his previous  
effusions have come in by air mail.  
This one he brought in himself.  
Probably thought the mail service  
might refuse it.

It has to do with the weather,  
which is rather unique don't you  
think. Hardly anybody else would  
have thought to dash off anything  
about the weather, days like these.  
Stand by to take soundings. Here  
it comes.

filled with woe oh bring  
me back those winter days  
when I could see some snow.

Met up with a couple of stran-  
gers the other evening. Parked out  
under a mock orange in the garden  
they were, refusing to come out into  
the heat, a couple of toads. A cou-  
ple of talking toads by the way,  
which is a bit out of the ordinary.

Nearly tramped on one of them  
which brought about the introduc-  
tion. "Watch where you're going  
you dope" said Dexter the male  
member of the team. "Isn't it  
enough to be gooey with the heat  
without having to dodge hoofs?" And  
then Daphne, the female toad piped  
up and remarked, "you might turn  
on the hose if you want to do us a  
favor."

And then we talked about this  
and that and it is surprising how in-  
telligent the toads are. They have  
plenty of time to think and some of  
their conclusions are interesting.  
Later on Dexter and Daphne have  
promised to make a few guarded  
statements for the public press.
